Mega-Clamp

The Mega-Clamp is the world's new standard theatrical lighting C-Clamp. The Mega-Clamp is created from high tensile, aircraft grade, extruded aluminum; so it's both stronger and lighter than cast iron damp. The Mega-Clamp's safety factor far exceeds industry standards, breaking at over 2-1/2 tons at an independent testing laboratory. It is half the weight and twice as strong as most cast iron damp.

In 1993, the Mega-Clamp introduced to the industry the one piece solid aluminum damp body, micro grooves to grip the pipe securely, and the spring loaded pan adjustment. The solid one piece damp body is designed to grip pipe with its micro grooves, and will not "rock" when making adjustments to the light fixture. The Belleville spring washer has 600# of spring load when compressed. This spring pressure keeps the fixture from drifting after making small pan adjustments to the light fixture. Just grab the fixture by the top of the yoke and twist to pan the fixture. Usually, you will not need to use your wrench to tighten the pan bolt; the fixture will stay securely held.

The Mega-Clamp fits from 1" pipe to 2" pipe sizes (1-1/4" OD to 2.375" inch OD tubes.) This means you can hang fixtures from a 2" pipe without having to buy an expensive "Heavy Duty Clamp". The Mega-Clamp fits the larger pipe standard.

Additional Options

Available with Stainless Steel Hardware, 2" bolts, 2.5" bolts, zinc bolts, or Atlas threads. Also available in white powder coat. Specific part numbers are listed below.

Minimum Size	1" pipe, 1.315" OD
Maximum Size	2" pipe, 2.375" OD
Safe Vertical Working Load	600 lb 273 kg
Hardware	1/2" x 1" long hex head Grade 5 zinc bolt 1/2" x 3" long square head set screw Belleville spring washer
Dimensions	5.875" tall x 3.675" wide x 1" thick
Weight	13.4 oz
Case Quantities	48

Mega-Swivel

Pan locking bolt style theatrical C-Clamp. Fixture is bolted to, and rotates on retained steel post in clamp body. Comes with half inch fasteners.

Minimum Size 1" pipe, 1.315" OD

Maximum Size 2" pipe, 2.375" OD

Safe Vertical Working Load 600 lb 273 kg

Hardware 1/2" x 1" long hex head Grade 5 zinc bolt
1/2" x 3" long square head set screw
Belleville spring washer

Weight 13.5 oz.

Case Quantities 24, 48

TC Clamp

The TC Clamp will fasten from 2" OD to 1.5" OD tube. The TC Clamp has a 2-1/2" T-handle so no tools are required to fasten to the pipe. 1.25" x 1/2"-13 TPI Grade 8 fastener, Nylock Nut and 1" diameter Belleville Spring washer are provided for connecting your load. Dimensions: 4-5/8" T x 4"W x 1-3/16" thick. Safe Vertical Working Load 450 Pounds, (200 KG). Weight is 1.22 pounds (.55 KG)

Minimum Size 1.5" OD tube, 1.25" pipe, 1.66" OD pipe

Maximum Size 2" OD truss tube, 1.5" pipe, 1.90" OD

Safe Vertical Working Load 450 Pounds

Hardware

1.25" x 1/2" – 13 TPI Grade 8 fastener with Nylock nut.
1" Belleville spring washer.

Dimensions 4 5/8" tall x 4" wide x 1 3/16" thick

Weight 1.25 lbs.
